

CALEB MCHEMBRE

Research & Data Professional | Field Research Coordination | Mixed Methods

+254702822084 | mchembrecaleb@yahoo.com | Mombasa, Kenya | [linkedin.com/in/caleb-mchembre-a24](https://www.linkedin.com/in/caleb-mchembre-a24)

PROFESSIONAL SUMMARY

Research professional with over four years of experience coordinating large-scale field studies in Eastern Africa, managing complex multi-site data systems, and ensuring rigorous ethical compliance. Experienced in both qualitative and quantitative research design, participant recruitment and retention, IRB submissions, and digital data collection using ODK and Kobo Toolbox. Fluent in English and Kiswahili. Passionate about generating evidence to drive systemic improvement in education and health outcomes across sub-Saharan Africa.

CORE COMPETENCIES

Quantitative & Qualitative Research Design • Large-Scale Field Study Coordination • Digital Survey Programming (ODK, Kobo Toolbox, REDCap) • IRB/Ethics Compliance • Participant Recruitment & Retention • Data Quality Monitoring • Qualitative Data Analysis (Atlas Ti8, NVivo) • Community Sensitization & Stakeholder Engagement • Knowledge Management • Research Dissemination

PROFESSIONAL EXPERIENCE

Community Research Officer (CRO) - November 2021 to Present

University of Washington - Pwani Research Centre | Mombasa, Kenya

• Served as focal site coordinator for the Gates MRI-TB multi-country epidemiological study, achieving 90% participant retention across 161 enrolled participants, a milestone that secured the site an additional clinical trial.

• Supported mobilisation of 245 participants for the SANOFI COVID-19 Phase III double-blind, multi-armed vaccine safety and efficacy trial.

• Designed and refined qualitative data collection instruments for maternal and reproductive health studies.

• Conducted 5 Key Informant Interviews (KIIs) for the FSB qualitative study with verbatim transcriptions.

• Managed end-to-end data collection, verification, and entry into REDCap ITHS across 186 study sites.

• Programmed and administered digital data collection tools using ODK and Kobo Toolbox with GCP standards.

• Assisted with IRB submissions, protocol amendments, and annual review documentation.

• Led community sensitization and represented the research site at annual research conferences.

Field Enumerator - May 2021 to June 2021

AMURT-Kenya | Mombasa, Kenya

• Conducted household-level data collection for baseline assessment of OVCs across 300 households.

• Administered informed consent and used ODK and Kobo Toolbox for mobile data collection.

• Sensitized community beneficiaries on project objectives.

Research Assistant Trainee - April 2016 to July 2016

KEMRI - Centre for Global Health Research | Kisumu, Kenya

• Assisted with primary data collection for molecular TB studies, including PCR and GeneXpert assays.

• Supported principal investigators during study design and protocol execution.

EDUCATION

Bachelor of Science - Biotechnology with IT

Maseno University, Kisumu, Kenya - November 2018

CERTIFICATIONS

• Redesigning Global Health - April 2026

• Project Management in Global Health - April 2025

• Fundamentals of Global Health Research - June 2023

• Leadership and Management in Health - December 2022

• Good Clinical Practice (GCP) - 2023-2025

• Human Research Subjects (HRS) - 2023-2025

• Introduction to Clinical Pharmacology - 2023

• Qualitative Research & Data Analysis - 2022

• Public Health Research & Open Science - 2023

• General Data Regulations Practices - 2022

• Good Clinical and Laboratory Practices - 2022

TECHNICAL SKILLS

Data Collection: ODK, Kobo Toolbox, REDCap ITHS, NCBI

Qualitative Analysis: Atlas Ti8 (proficient), NVivo (familiar)

Quantitative Analysis: Stata (developing), R (developing)

Languages: English (fluent), Kiswahili (fluent)

PROFESSIONAL AFFILIATIONS

• Member - Maseno Biomedical Alumni Association

• Member - Biosafety Association of Kenya (BIBAK)
